1990 Annual Editorial Index

Feature-length articles that appeared in GLASS INDUSTRY issues. Classifications indicate the major interest of each article.

Title	Issue	Page
ANNEALING/STRENGTHENING		
Tin Oxide Coatings Help Containers Resist Abrasion	May	23
How Container Impact Strength Correlates with Wall Thickness	June	10
Thin Ceramic Films Used to Reinforce Glass	June	15
Strengthening Equipment Show in Print	June	16
BATCHING		
Cullet Preheater Performs Well in Field Test	Feb.	6
Should Mixed Batch Be Pneumatically Conveyed?	July	8
Methods Used for Discharging Bulk Solids from Storage	July	14
Batching Equipment Show in Print	July	15
DECORATING		
Decorators Cautioned to Comply with Voluntary Standards	May	25
Decorating Show in Print	Aug.	14
ECONOMICS		
Glass Container Industry Outlook	Jan.	8
Flat Glass Industry Outlook	Jan.	10
How the Industry Fared in 1989—Part I	Aug.	16
How the Industry Fared in 1989—Part II	Sept.	34
ENERGY/ENVIRONMENT		
How Environmental Laws Can Impact on Your Operation	May	8
Latchford Plant Operates Successfully in a Strict Pollution Control Environment	May	13
Pollution Control Equipment Show in Print	May	19
Furnace Gases Can Be Controlled	June	23
FORMING		
How Owens-Illinois Approaches Lightweighting	April	14
Forming Equipment Show in Print	April	18
Coated Tooling Can Improve Glass-Forming Operations	April	40
How Owens-Corning Makes Fiberglass Reinforcements	Oct.	24
GENERAL FEATURES		
Public Warehousing Works Well for Ford's Glass Division	May	24
The Phoenix Award Goes South of the Border	Aug.	22
Corning Plant's Computer-Integrated Management Plan Wins Major Award	Nov.	19
Ball-InCon's Looney Sizes Up the Glass Container Industry	Dec.	9
MARKETING		
The Industry Honors the Package Innovator	Feb.	20
New Technology to Affect TV Production	March	32
Fiberglass Composites Industry Faces a Slowdown	April	20
The Composites Industry Tones Down Its Optimism	April	22
Auto Glass Coating Growing Worldwide	June	29
Fair Skies Ahead for the Aircraft Transparency Business	July	25
A "Mixed Bag" Market Ahead for Window Glass	Aug.	21
Will the Glass Container Industry Continue to Grow?	Sept.	42
Communications Goes "Glass"	Oct.	26
Packaging Industry Growth to Slow	Nov.	21
MATERIALS/PRODUCT HANDLING		
Packaging Show in Print	Jan.	16
Dunnage Bags Reduce Shipping Damage	Jan.	20
Glass Handling Equipment Show in Print	Feb.	14
MEETINGS/SHOWS		
Glass Problems Conference Report—Part I	Jan.	13
Glass Problems Conference Report—Part II	Feb.	16
Glassman America Preview	April	24
Society of Glass and Ceramic Decorators Meeting Preview	Aug.	8
Glastec 90 Exhibition Preview	Sept.	36
Products Exhibited at Glastec 90	Sept.	40
MELTING		
$LoNO_x$ Melter Shows Promise	March	14
New Furnace Utilizes Glass Fiber Waste	March	23
A Furnace Designed for High Cullet Use	March	25
Combustion Equipment Show in Print	March	26
PROCESS CONTROL/ INSTRUMENTATION		
Pour-On Process Control Works for Fluorescent Lamp Maker	March	33
Rossford Upgrades Its Production Control System	Oct.	10
Temperature Control Measures Used in Glass Melting—Part I	Oct.	16
Process Control Equipment Show in Print	Oct.	20
Temperature Control Measures Used in Glass Melting—Part II	Nov.	8
Temperature Monitoring Equipment Show in Print	Dec.	19
QUALITY CONTROL/INSPECTION		
How to Measure Temperatures of Coated Glass with Infrared Thermometers	Nov.	13
Quality Control Equipment Show in Print	Nov.	15
RAW MATERIALS		
How to Make Good Quality Cullet	Feb.	10
Glass Manufacturing Remains the No. 1 Soda Ash Market	Dec.	6
REFRACTORIES		
How Are Superstructure Refractories Meeting Today's Challenges?	March	31
Is Additional Melter Insulation Feasible?	June	30
How Furnace Operation Affects AZS Glass Phase Exudation	July	19
How to Achieve a Good Silica Crown Heat-Up	Sept.	14
How High Zirconia Refractories Are Used in the Glass Industry	Sept.	20
Refractory Products Show in Print	Sept.	31
